## BOGAN

Is Australian and New Zealand slang for a person whose speech, clothing, attitude and behaviour are considered unrefined or unsophisticated. Depending on the context, the term can be pejorative or self-deprecating.

The prevalence of the term bogan has also been associated with changing social attitudes towards social class in Australia. Specifically, the term has been related to the decline of masculine conceptions of meritocracy in Australia, and a growing ambivalence towards traditional sites of working class culture.
